

Achieve world-class hospitality management by relying on Infor FMS SunSystems for first-class financial control, business intelligence, reporting, and analytics.

INFOR FMS SUNSYSTEMS FOR HOSPITALITY

COST-EFFECTIVE DISTRIBUTION SOLUTION.

In a volatile business climate, unexpected trends can abruptly reduce a hotel's profitability and threaten the health of your business. To avoid unpleasant financial surprises and keep your properties operating smoothly, you need a financial management system that's designed to give you the timely and immediate financial information you need to make effective operational decisions and manage the unique demands of the hospitality business. Day after day, guest after guest, your financial management system should help you see how you can do more with less and keep your guests coming back.

LEVERAGE EXPERIENCE.

More than 1,500 chain-affiliated hotels and 700 local and independent properties rely on Infor™ FMS SunSystems to meet the specific demands of the hospitality business. For more than ten years, Infor FMS SunSystems has helped some of the world's most successful hotels and resorts integrate and streamline their business processes to improve visibility and profitability. When you rely on Infor's world-class solutions, you can trust that you've found a system that can keep your property at top performance for many years to come.

GET BUSINESS SPECIFIC.

We've tailored Infor FMS SunSystems' comprehensive features to fit perfectly with the specific requirements of your hospitality business. The core solution includes:

- ▶ Predefined charts of accounts that adhere to hospitality standards, including the Uniform System of Accounts for the Lodging Industry (USALI)
- ▶ Predefined analysis features, incorporating departmental structures and management reporting lines, as well as an enhanced analysis structure on the general ledger
- ▶ A report pack that includes standard operational and management reports, key performance indicators, and powerful analysis functionality
- ▶ Interfaces to other critical hotel systems including PMS and POS

With reporting tailored for your users, the Infor FMS SunSystems financial solution allows your hospitality business to rapidly design and deliver operational and management reports drawn on a single data source. The application's intuitive, easy-to-learn toolset helps you rapidly master your financial information. Combine the ease and flexibility of Microsoft® Excel® with the integrated security functions in Infor FMS SunSystems to quickly create your own professional looking reports. You can also create multilayered reports, so that you can generate information that meets the requirements of hotel owners, franchise operators, managers, and staff.

Infor FMS SunSystems helps you gain greater control of your business by giving you a thorough understanding of what is happening, as it happens. You'll gain the ability to measure and track key performance indicators for each business and property at will, which will help you to identify trends, uncover problems, and recognize opportunities. The solution can also generate alerts that highlight and define exceptions within processes, which helps your staff address urgent issues immediately.

Infor FMS SunSystems offers the power to help you achieve smooth, profitable hospitality operations. It offers rapid implementation and the flexibility to match your organization's structure and processes. With support for multiple currencies and multiple languages as well as full Euro and GAAP compliance, Infor FMS SunSystems delivers the features that can help you achieve operational excellence.

SEE RESULTS NOW.

By choosing Infor FMS SunSystems, you'll help your hospitality organization achieve a reliable, apples-to-apples view of financial performance across your entire enterprise, along with the flexibility, control, and world class performance you need to adapt to the demands of today's challenging business environment. More than 2,200 hotel customers know that the deep industry experience of Infor's global network of dedicated partners and professionals translates to the world's best solution for the hospitality industry.
